

2006 Aleutian Skiff surveys

Adak sea otter boat survey - 2006

Distribution and relative abundance of sea otters observed along skiff based shoreline transects at Adak Island, June 2006. The entire shoreline and systematic offshore transects of Adak were surveyed. No sea otters were observed on offshore transects. Symbols reflect the location of the survey vessel, and the approximate location of the otters. Clam lagoon was surveyed from shore and locations were digitized into the ARC file.
